Cloud Hosted ImageWebGate® Service Provides Mobile Digital Voice Results to Hospitals and Health Networks

November 22, 2011, Havertown, PA. Integrated Modular Systems, Inc. is showcasing the cloud hosted ImageWebGate® with RIS, PACS and VNA services at RSNA 2011 for hospitals and health networks in booth # 3904. ImageWebGate provides a “single click” interactive interface to images, resulting, and mobile digital voice. The radiologist is coordinated with the universal OneList™ worklist and windows are launched for medical images, and previous history. Reports are produced using voice recognition, or transcription accessing hosted voice files, and automatically transmitted to RIS, HIS, EMR, and to fax and email services.

The data flows through imsiINTEGRATOR™, which employs the InterSystems Ensemble® based interface engine.

Also featured are the Grundig Business Systems Digta CordEx® wireless professional microphone for in the office, and the Digta 7® digital voice recorder for creating reports on-the-go at multiple locations.

About Integrated Modular Systems Inc.

Integrated Modular Systems Inc. (IMSI) is a leading integrator of medical imaging and healthcare technology solutions. For over 30 years IMSI has been engineering, installing, customizing and supporting healthcare technology solutions to meet the individual needs of clients across the U.S. With expertise in web-based products, HL7, and DICOM conformance, IMSI offers a continuum of PACS and teleradiology products and services. IMSI works with corporate partners in the industry to design and bring to market the most technologically advanced solutions. IMSI concentrates on the needs of clients, so they can stay focused on their patients’ diagnostic images. Find out more about IMSI on the internet at www.imsimed.com.

About Grundig Business Systems GmbH

With more than four million dictation systems sold and over 50 years of experience, Grundig Business Systems GmbH (GBS) is one of the world’s leading manufacturers of professional dictation systems. It is the only company in the professional dictation industry to develop and produce its cutting-edge

products in Germany. GBS products are distinguished by technical innovation, quality, and top-notch design. Whether for doing mobile dictation on the go, with a microphone at the PC, or for making conference recordings, dictation solutions from GBS are on the scene every day, helping attorneys, physicians, companies, and many others to get their work done efficiently and cost-effectively. The independent company, formerly attached to the parent company Grundig, was named one of the top 100 most innovative medium-sized companies by the Vienna University of Economics and Business. In addition to numerous awards for distinguished product design, GBS received the "IT Innovation Prize 2009" for the world's first wireless dictation microphone for professional use, the Digta CordEx, by the "Initiative Mittelstand" (an initiative for medium-sized businesses).. GBS' North American Headquarters are in Naperville, IL. Find out more about GBS on the internet at www.grundig-gbs.com.
