

imsi RIS-X2

Hosted Radiology Information System Software as a Service (SaaS) for Hospitals and Imaging Centers

Web-based secure access to RIS functions from anywhere at anytime, "all over the Web"

Bi-directional HL7 transactions for Order Entry, Scheduling, ADT and Results delivery

Fully integrated transcription services with *imsi* VOICE

Modality Worklist for all DICOM modalities

Direct Link to PACS Imaging Systems

PDF Requisitions and Patient Results delivered directly to hospital floors and clinics

Optional integrated hosted imsi PACS with Web viewers and dedicated workstations

Automatic archiving

Software service is purchased on a per study billing model

Expert support and development staff shared by all users

Challenges

Limited functions of current RIS
Need for access to patient information from off-site locations
Outdated interfacing with current system
Requirement for HIPAA compliant archiving, disaster recovery, and business continuity

Solution

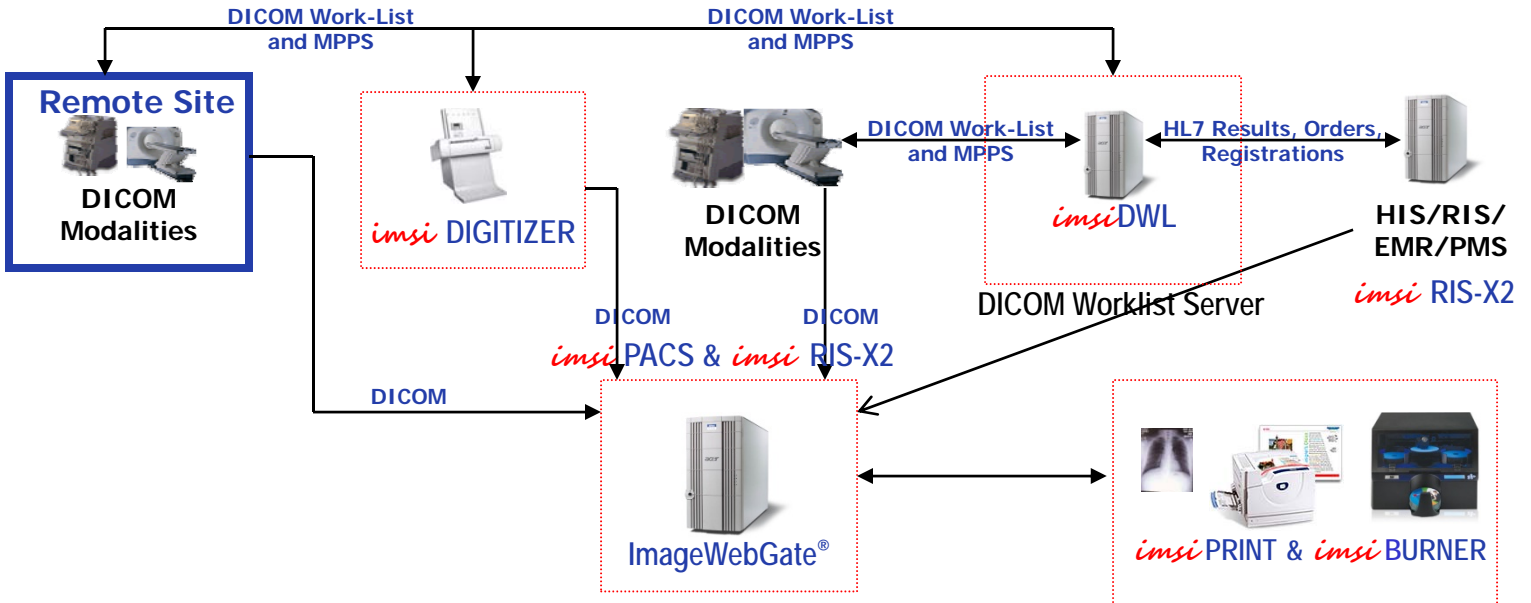

An integrated, hosted RIS

- Web-Based capability
- Easy to use, customized
- Secure remote hosting site
- *imsi* RIS-X2

Benefits

Web access improves productivity and results
Integrates with current PACS
Scalable system; up to 500 concurrent users
Access to information anywhere at anytime, "all over the Web"
Secure system back-up and fail-over support
